SUMMARY

Aspiring and motivated **Frontend Developer** with hands-on experience in building responsive and accessible web applications using **HTML5**, **CSS3**, **JavaScript**, and **React.js**. Proficient in **Git**, **Bootstrap** with a strong understanding of **UI/UX principles** and **cross-browser compatibility**. Demonstrated ability to develop clean, maintainable code through personal and academic projects. Eager to contribute to fast-paced development teams and grow as a web developer in a professional environment.

PROJECT

Resume Matcher

May 2025 - June 2025

- Engineered Resume Matcher, enabling users to align their resumes with job descriptions by leveraging a streamlined comparison interface built using React, JavaScript, HTML5, and CSS3.
- Integrated advanced parsing algorithms and implemented intuitive analytics dashboards, empowering users to identify skill gaps and strengthen application effectiveness within a seamless user experience.
- Technologies Use: React, JavaScript, Tailwind, HTML5, and CSS3

Employee Management System

January 2025 - February 2025

- An Employee Management System (EMS) built with ReactJS is a web application that helps organizations manage their employee efficiently. It allows the addition, removal and viewing of employee data and can also include feature like tracking attendance, managing departments and assigning roles.

Weather Website

- This weather app provides user with a simple, clean Interface to search for and view weather condition in any city
- It leverages React or efficient UI rendering, hooks for state management and external weather API to fetch live weather data.
- Technologies Use: React, JavaScript, Weather API

EDUCATION

Bachelor of Technology

Meerut Institute of Engineering and Technology · Meerut , Uttar Pradesh · 2026 · 7.5

12th

M G Public School · Muzaffarnagar · 2021 · 82.3
